UNIT 5: Green Skills TEST YOUR KNOWLEDGE

1.	Living organisms belong t	o element	of environment.	
	a. Biotic	b. Abiotic		
2.	Land, air and water belor	ng to elem	element of environment.	
	a. Biotic	b. Abiotic		
3.	saves us from harmful UV rays.			
	a. Lithosphere		c. Hydrosphere	d. Biosphere
4.	Which of the following is an example of ecosystem?			
	a. Forest	b. Orchard	c. Pond	d. All of these
5.	Endangered species of animals and plants are due to:			
	a. Rapid industrialisation			d. All of these
6.	Farming, logging and mining have lead to			
	a. Deforestation	b. Air pollution	c. Over-population d.	. Unemployment
7.	Size of particulate matter in air is measured in			
	a. Macrometers	b. Micrometers	c. Millimeters	d. PM
8.	Global warming is associated with which of the following gases?			
	a. Carbon dioxide	b. CFC	c. Both a) and b)	d. Nitrogen
9.	Ozone layer depletion leads to:			
	a. Melting of glaciers	b. Skin diseases	c. Both)a and b)	d. Floods
10.	Which of the following is hazardous waste?			
	a. sewage water	b. Electronic waste	c. CFC	d. Acid rain
11.	Which of these is not a green initiative?			
	a. Solar energy	b. Biogas	c. CFC	d. Windmills
12.	Green economy addresses:			
	a. Low carbon emissions	b. efficient use of resour	ces	c. Social benefits
	d. All of these
